

Get Credit for Your EIN That's Not Linked to Your SSN

Right now you can qualify for business credit without a personal credit check, and without supplying a personal guarantee.

Take a look at some of the many benefits that business credit provides you...

- ▶ Build business credit regardless of your personal credit... get credit that's linked to your **EIN** regardless of your **SSN** credit quality
 - ▶ Get credit that has no effect on your personal credit... business credit accounts only report to business reporting agencies, so utilization and inquiries have no effect on your personal reports
 - ▶ Build business credit **FAST**... get initial vendor credit immediately, store credit within **90 days**, and cash credit within **120 days**
 - ▶ Get **HIGH** limit business credit accounts... per **SBA** business credit approval limits are 10-100 times higher than consumer credit limits
 - ▶ Get business credit with no collateral or financials... even as a startup business
- you can still get business credit as no tax returns or collateral are required for approval
- ▶ Secure business credit with no personal liability... no longer do you need to personally guarantee your business debts, keeping your family's finances safe
 - ▶ Having business credit established increases loan approval... increase your chances of getting higher-dollar bank loans
 - ▶ Anyone can see your business credit reports including prospects, clients, and competitors... insure your business's financial picture is represented the way it should be by building your business credit
